

# PORCELANOSA

Home Collection

PORCELANOSA Grupo presents the latest edition of Home Collection, an extensive prime selection of ideas for the home, from a varied selection of ceramic tiles, stone or wood coverings to kitchen and complementary furniture, taps, bathroom furniture, sanitaryware, bathtubs, and walk-in and standard wardrobes, available in a wide range of models, sizes and styles.

Visit your nearest PORCELANOSA showroom where, in addition to the above, you can discover a wide range of interior design ideas with emphasis on quality and design, with professional guidance at all times from our specialised members of staff.

Ask our sales staff for information about promotional offers and financing schemes to help you benefit from the enjoyment of our products, with the guarantee of PORCELANOSA Grupo brand names.

# SPECIALIST GUIDANCE

Visit your nearest PORCELANOSA showroom for professional guidance from our members of staff and discover the products that best suit your requirements.

Find your nearest PORCELANOSA showroom swiftly and easily using our online store locator at [www.porcelanosa.com](http://www.porcelanosa.com)

# PORCELANOSA CUSTOMER CARE

For enquiries of any kind, call our telephone helpline on **+0034 901 100 201**  
(for UK calls please dial **08702 240245**)

If you prefer, you can also contact us by e-mail at [atencion.cliente@porcelanosa.com](mailto:atencion.cliente@porcelanosa.com)

# WWW.PORCELANOSA.COM

Check out our website to find out the latest news, projects and new products by PORCELANOSA Grupo's companies.

It also features technical and sales information of all kinds, as well as allowing you to subscribe to our monthly newsletter.

## MOBILE PHONE APPS

PORCELANOSA Grupo has created a series of mobile phone apps for professionals from the fields of architecture and interior design and for private individuals and users interested in the group's products and materials.

They can be downloaded directly from the Apps section of our website or from iTunes.

## LIVING ROOMS

Discover our collections of resistant ceramic parquet, floor tiles that recreate continuous cement flooring or artisanal encaustic cement tiles, in addition to the warmth of our natural wood or the rich beauty of stone. They can be combined with relief pattern wall tiles and vinyl finishes to create warm, cosy settings.

# BEDROOMS

Surfaces that evoke the very essence of natural wood or stone, or textured ceramic tiles reminiscent of delicate fabrics and wallpapers: perfect for dressing up bedroom walls.

PORCELANOSA Grupo's wardrobes and walk-in closets allow you to make the most of your storage space. Conspicuous for their top-quality finishes, they feature endless different options to fit in with projects of all kinds.

## DECORATIVE PROFILE

Butech's decorative profiles are the small details that make a difference in bathroom design.

Butech offers a wide range of profiles that are adapted to a wide variety of uses: decorative metallic lines, separations between different materials, corner protections, or upper trims for wall coverings. Thus, Butech offers its customers solutions for all types of bathrooms and kitchens, from functional design chromed profiles to 24 k gold profiles for the most exclusive environments.

**Screen**  
YOVE

The new YOVE bath and shower screen collection with the simplicity of its lines captures a minimalist and contemporary spirit, without compromising on rugged performance. In various formats and sizes to satisfy market demand. The screen is available in two heights: 1950mm for showers and 1450mm for installing over baths. The entire range features space-saving sliding doors, for user convenience. The doors have 2 bearings on the upper section, leaving the bottom of the screen clear

The minimalist profile together with detachable lower guide makes the YOVE range extremely functional and versatile

## LAND SHOWER TRAYS

Manufactured with high performance Technical Gel Coat. Land reproduces the texture of slate with a high gloss finish. Land Stone offers a texture similar to granite with a matt finish.

Land shower trays have been designed to respond to:

State-of-the-art design: research into customer requirements and aesthetic trends stimulate new ideas to keep us at the forefront of design.

Increased performance: new features such as Land Stone Class 3 non-slip surface and pleasant feel were considered when creating this range.

## PORCELANOSA CERAMIC SHOWER TRAYS

Butech offers complete solutions for projecting shower trays integrated with the floor tiles.

Its wide range of waterproofing materials compatible with the ceramic placement, such as compact sump systems and heat sealed waterproof sheet, ensure the tightness of the area, eliminating the risk of leakage.

For the final finishing, Butech has an extensive collection of decorative grids among decorative grids with metallic or glossy finishes and can even achieve a visual continuity with the same ceramic pavement inserts.

FV KRION<sup>®</sup>

## HIGH-PERFORMANCE SOLUTIONS

Ventilated facade systems, raised-access floors, waterproofing and sound insulation products and renewable energy systems all help to optimize the installation process, while also improving energy efficiency and the performance of our homes.

## TILED FACADES

All STON-KER, URBATEK and even PAR-KER tile models can be used on facades. Thanks to their technical characteristics and wide variety of designs, they are ideal as outdoor cladding on buildings.

Through its Technical Project Department, Butech offers clients of PORCELANOSA Grupo assistance in the design and assembly of facades.

**Salient products:**  
 VENTILATED FACADES  
 BONDED FACADES  
 KRION® VENTILATED FACADES

## KRION® FACADES

The KRION® VENTILATED FACADE system combines the excellent performance of Solid Surface with the know-how developed by Butech in the design and execution of those kind of facades. All accredited by the most demanding international agencies and the prestige of the brand PORCELANOSA. This system adapts perfectly to the cladding and allows the designer to perform impossible designs with other materials: curved forms, backlight, decoration by engraving or facade designs in different planes. The technical characteristics of the system as well as its flexibility allows to create the most innovative designs.

## RAISED ACCESS FLOORING

Floor tiles by PORCELANOSA Grupo can also be used in office buildings where raised access flooring with a metal structure is needed. All 59.6x59.6 cm STON-KER models can be adapted by Butech for use in this system.

Butech also manufactures special double-thickness porcelain tiles for use on terraces, using PVC pedestals assembled on the waterproofing layer.

For further details of this system, ask the sales team at your nearest PORCELANOSA showroom.

## CLI-KER n.

One characteristic of architecture today is the need for building systems that can save on costs and project execution times. In response to this demand, Butech has developed CLI-KER n: an adhesive-free dry-installation flooring system.

Available for use on indoor floors and terraces.

For further information about this system, see [www.butech.es](http://www.butech.es)

## FULL SAFETY AND ASSURANCE

### TILE-LAYING MATERIALS

A specific adhesive is required for each tile model. PORCELANOSA Grupo has a close awareness of its product's requirements, and it develops technical solutions to facilitate the installation of different tile models and to ensure safe, healthy buildings.

PORCELANOSA Group just recommends Butech setting materials. Ask our technical team for choosing the correct adhesive.

#### Salient products:

fr-one n  
one-flex n  
levelling tile spacers and wedges

## PERFECT FINISHES

### GROUTING MATERIALS

The colour, shade and texture of tile joints are important aspects to be taken into account in the design of tiled surfaces. Just as you select the tile model of your choice, you should also choose the grout that best fits in with it.

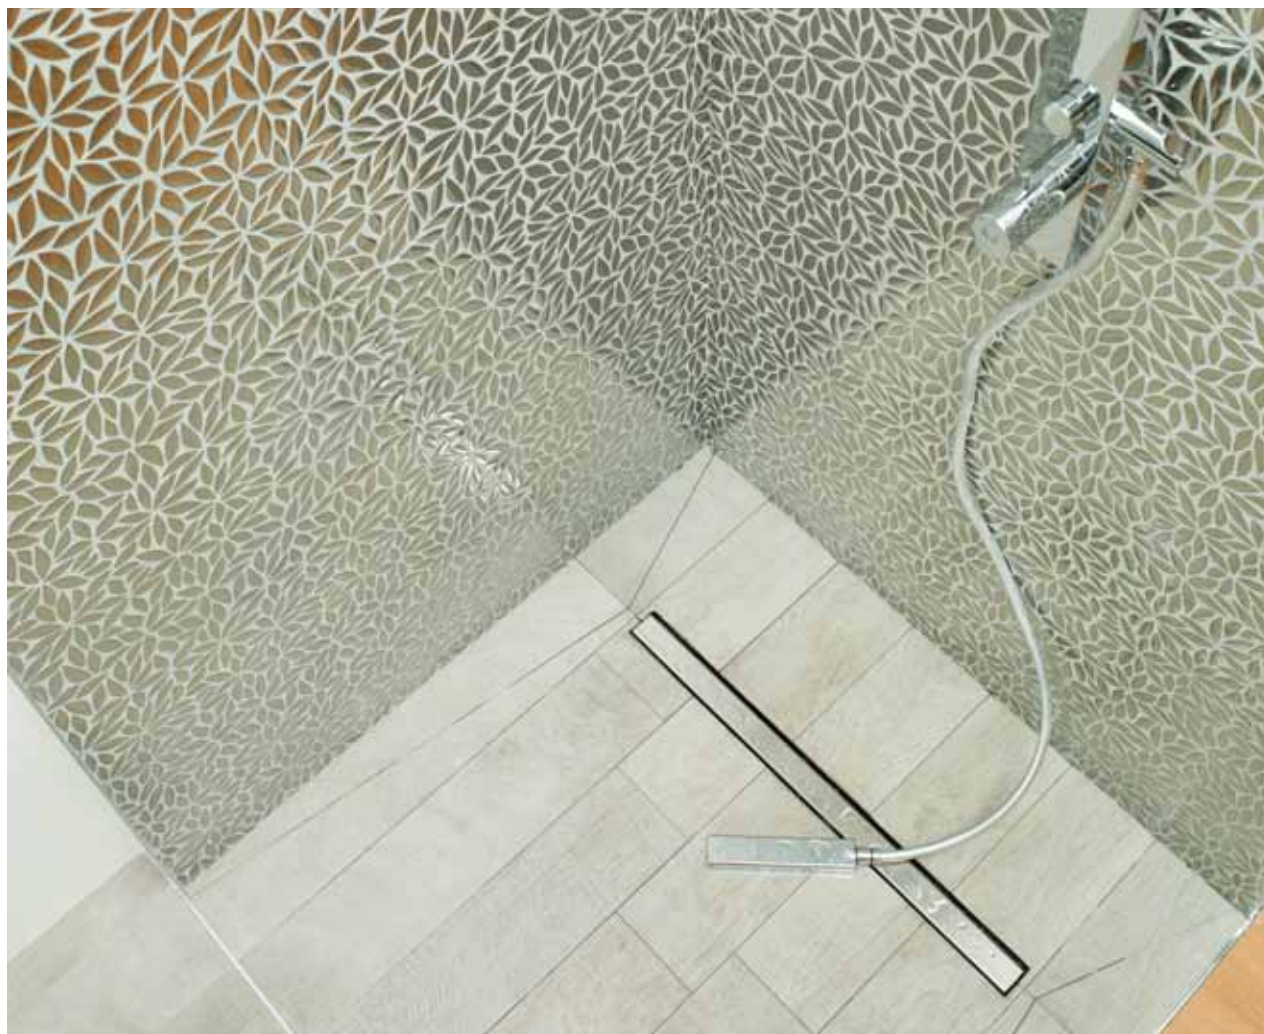

The quality of the grouting material is also crucial so as to prevent changes in colour, loose grouting or even water penetrating the joints. PORCELANOSA Grupo's tile catalogues specify the recommended shade of grouting material to use with each tile model.

#### Salient products:

colorstuk 0-4 n  
colorstuk rapid n  
epotech crystal

## WATERPROOFING SYSTEMS

When water is present, there is always risk of leaks. This contingency must be taken into account in the design and creation of all bathrooms. Damp, drips and water leaks can be avoided by laying a waterproofing membrane under tile coverings as a moisture barrier.

Waterproofing membranes, waterproof mortar, drains and decorative drain grills are essential in the creation of swimming pools, terraces and bathrooms.

**Salient products:**

Check the available grids on page 149

## TILED SHOWERS

A growing number of bathrooms feature showers with a tiled or mosaic tray instead of a conventional fibreglass one. Butech offers a wide range of waterproofed prefabricated panels ready for tiling over with mosaics or tiles, with the right slope for water to drain away.

This kind of tray is specially recommended for bathroom refurbishment projects.

**Salient products:**
