ARO

Las profundas formas cóncavas de los diferentes elementos de la colección ARO, que recuerdan a los boles de porcelana utilizados en este rito. Bajo esta premisa, estudi{H}ac redefine una tradición ancestral con un diseño moderno al que da forma un material tan innovador como el compacto mineral KRION® a base de líneas sutiles, naturales y limpias, concretadas en figuras semicirculares de tacto cálido.

The deep concave shapes of the different elements of the ARO collection are reminiscent of the porcelain bowls used in this ritual. Under this premise, estudi{H}ac redefines an ancestral tradition with a modern design which shapes the innovative material of the compact mineral KRION®, based on subtle, natural and clean lines in semi-circular forms which are warm to the touch.

Les profondes formes concaves des différents éléments de la collection ARO, qui rappellent les bols en porcelaine utilisés à l'occasion de ce rite. C'est dans cet esprit que estudi{H}ac revisite une tradition ancestrale avec un design moderne auquel donne vie un matériau aussi innovant que le minéral compact KRION® sur la base de lignes subtiles, naturelles et pures s'exprimant sous forme de figures semi-circulaires agréables au toucher.

NEST

La nueva serie NEST presenta líneas suavemente redondeadas, inspiradas en formas asimétricas con una presencia exquisita, donde el diseño, al igual que el agua, fluye de forma suave y natural.

Este cuidado diseño con ausencia de esquinas permite que su mantenimiento y limpieza sea fácil y rápido, prolongando su durabilidad. Cuenta con un copete perimetral prácticamente imperceptible que favorece la higiene y evita las salpicaduras.

The new NEST series stands out for its gentle rounded edges, inspired by asymmetrical shapes, and its exquisite discrete natural design.

Thanks to its lack of corners, it is swift and easy to clean and care for, ensuring a longer life. The tray's almost imperceptible upstands contribute to hygiene and avoid splashes.

La nouvelle série Nest présente des lignes raffinées légèrement arrondies, inspirées des formes asymétriques, où le design, à l'image de l'eau, évolue d'une manière douce et naturelle.

Ce design soigné, sans angles, permet un entretien et un nettoyage aisés et rapides, tout en prolongeant sa durabilité. Il dispose d'un rebord sur tout le périmètre pratiquement imperceptible, qui favorise l'hygiène et évite les éclaboussures.
