PORCELANOSA Grupo

Sheet

KRION® is a cutting-edge compact uniform mineral material developed by Porcelanosa Grupo, made of a high percentage of natural minerals like alumina trihydrate (ATH) and a low percentage of high-resistance acrylic resins.

Composition with a high mineral content/
Through-body renewable material

Food grade
NSF-51 | 10/2011
Regulation

Non-porous / hygienic
ASTM D670

Sustainable
DAP | SCS Recycled
Content | GBCe

Prevents the growth of
microorganisms
ASTM G21 | ISO 846

High durability

Seamless joins
Visual and mechanical
continuity

Resistant to impacts
Hard and tough | ISO 19712

Thermoformable
Maintains its properties
when thermoformed

High bending strength
ISO 178

High fire resistance
UNE-EN 13501
(B S1 -d0) |
NFPA 101 (Class A) |
ASTM E84

Low thermal conductivity
Conductivity similar to
wood | ISO 12667

Easy to clean
NEMA LD3 | ISO19712

Resistant to extreme
environments and to
ultra-violet rays
Resistant to seismic
activity, frost and ice, and
saline environments.

Non-toxic
BPA FREE | REACH | SiO₂
FREE | GreenGuard | Gold
| A+ Label | LBC-Red List
Compliant |HPD

PROPERTIES

The following icons are a basic guide to important aspects of the properties of KRION® to take into account when choosing a colour for your project.

MARKS	RESISTANCE TO UV RAYS
	 Colour change of over 10ΔE in 10 years.
	 Colour change of 5ΔE to 10ΔE in 10 years.
	 Colour change of less than 5ΔE in 10 years.
	 Tests conducted over a long period of time. No conclusive results available as yet.

RECYCLED CONTENT	TRANSLUCENCE
 Colour containing some recycled material.	 Colour with a higher translucence when backlit.

Thermal Bending

Good potential for thermal bending, the material can be 2-dimensionally bent up to the minimum radius of curvature shown in the fabricator's manual.

High potential for thermal bending, allowing for the creation of 3-dimensional shapes, although in the case of extreme designs, a slight whitening might be noticeable near curved sections.

A high potential for thermal bending, allowing for the creation of 3-dimensional shapes. Extreme designs can be made with no noticeable whitening near curved sections.

Tests in process.

COLLECTIONS

KRION® is suitable for all kind of applications due to it's exclusives qualities, however it has been identified by collections the color's adequacy relating an excellent behavior on three possible frequently used applications with excellent performance and low maintenance.
