MATT & GLOSS

PORCELANOSA

“Studio y Matt, innovación cerámica en brillo y mate”

Porcelanosa va un paso más allá en innovación cerámica con sus acabados brillo y mate. Sus dos nuevas series de revestimiento, Studio y Matt, incorporan estas opciones y otorgan una mayor luminosidad a los espacios que buscan hablar un lenguaje propio.

En su constante búsqueda por descubrir nuevos productos y metodologías de producción cerámica, la firma se ha hecho eco de las actuales necesidades del sector y ha desarrollado dos colecciones multidisciplinarias que asientan las bases para el diseño del mañana. Previa que se mostrará en Cersaie 2018.

En materia de revestimiento, la serie Studio se presenta con el formato 31,6x90 cm en cinco colores diferentes: Taupe, White, Sand, Grey y Metal y tres decorados. Su amplio abanico cromático permite reinventar los elementos y los usos que tienen lugar en cocinas o baños. Resultado del efecto brillo y la luz que desprenden sus piezas.

Para el pavimento, se presenta un formato de 60x60 cm y cuatro colores: White, Taupe, Sand y Grey. Vanguardia estética ilimitada.

Basada en el blanco puro y sus infinitas posibilidades, la colección Matt destaca por el equilibrio y amplitud que concede a los proyectos constructivos. Tanto el revestimiento, cuyas dimensiones son de 45x120 cm y presenta cuatro decorados, como el pavimento, disponible en 59,6x59,6 cm y 100x100 cm, han rediseñado los cánones clásicos del interiorismo a través de su color White. Apología de la sobriedad lumínica.

“Studio and Matt, ceramic innovation in gloss and matt”

Porcelanosa goes a step further in ceramic innovation with its gloss and matte finishes. Its two new series of wall tiles, Studio and Matt, incorporate these options and provide more light to spaces that seek to speak their own language.

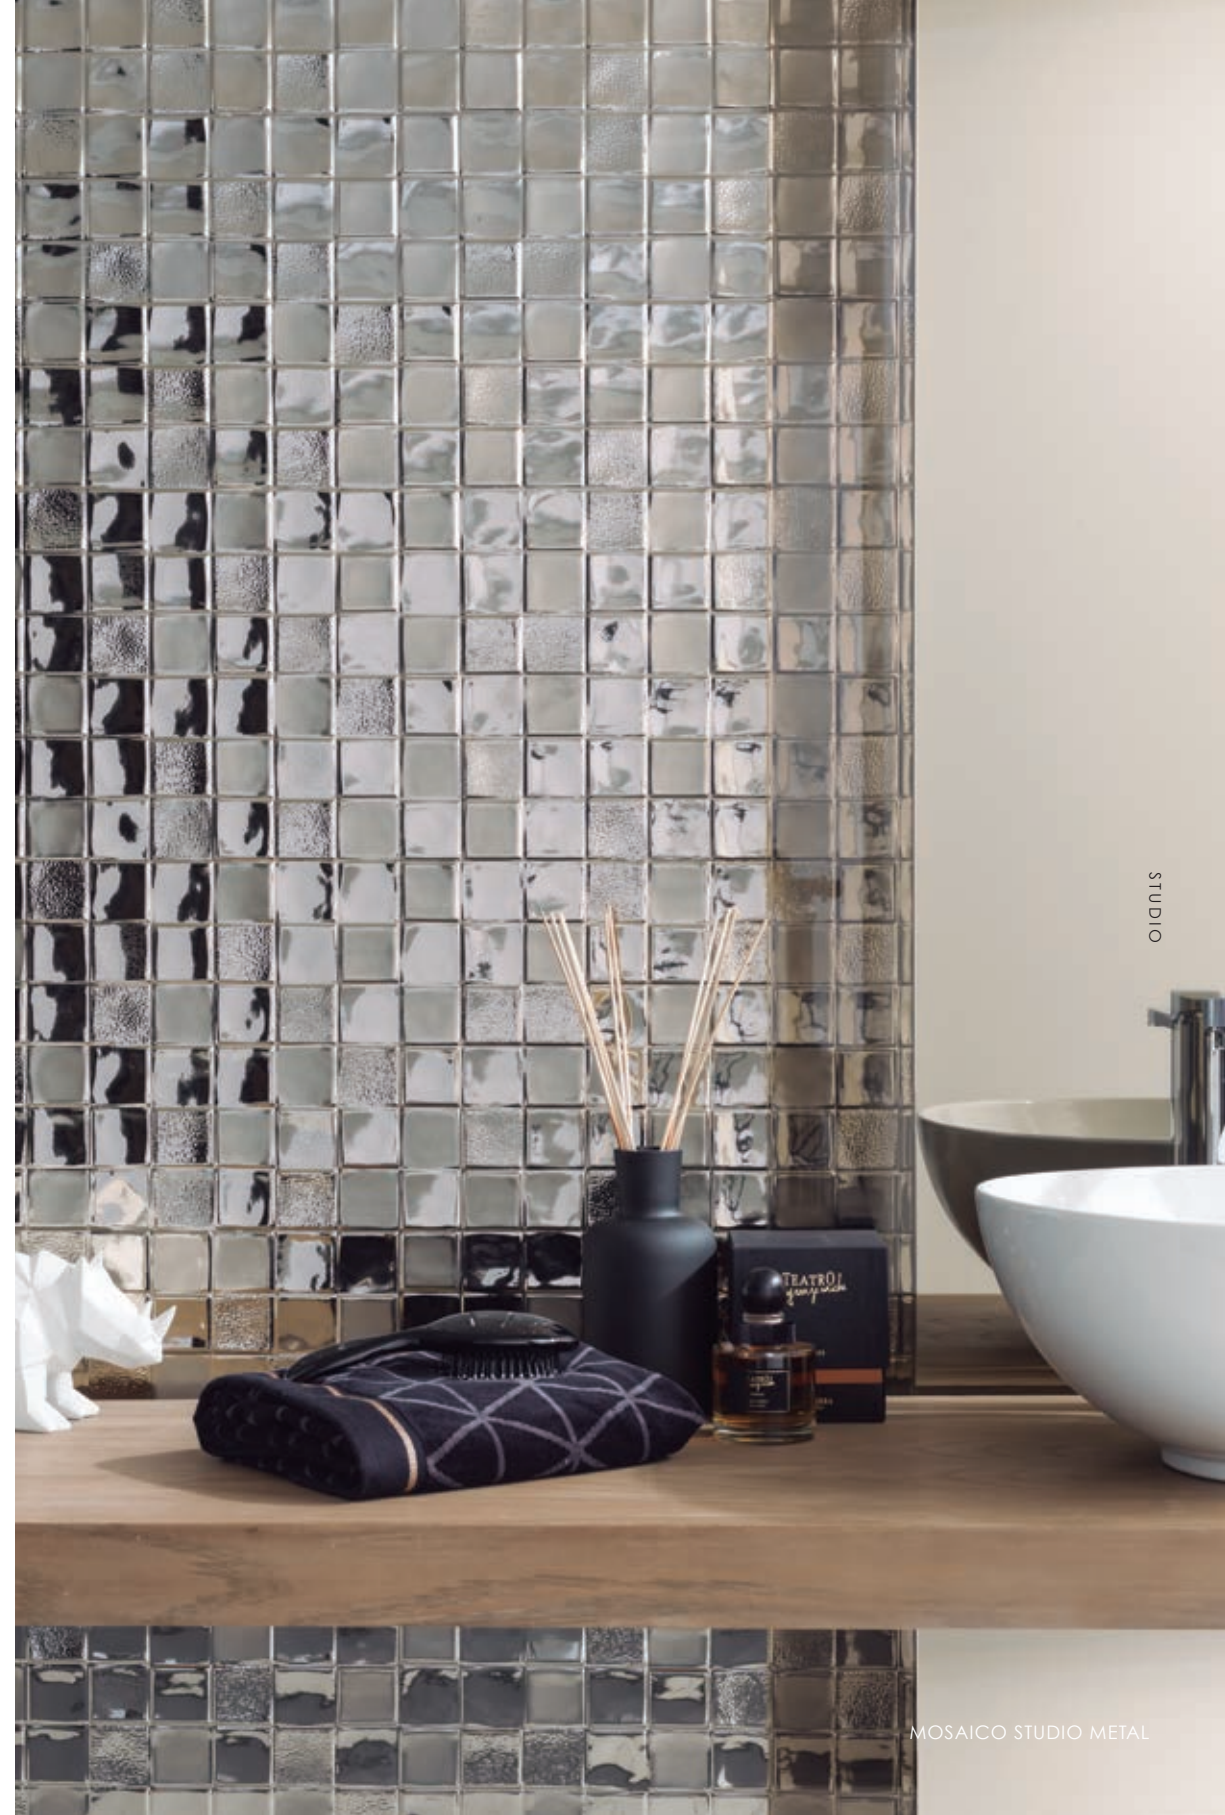

In its constant search for discovering new products and ceramic production methods, the company has listened to the current sector needs and has developed two multidisciplinary lines that lay the foundations for future designs. Preview to be displayed at Cersaie 2018.

In terms of wall coverings, the Studio series is presented in a 31.6x90 cm format in five different colors: Taupe, White, Sand, Grey, and Metal, and three decorations. Its wide chromatic range allows for the reinvention of the elements and uses that occur in kitchens or bathrooms. This is the result of the gloss effect and the light that its pieces give off.

For the flooring, it presents a 60x60 cm format and four colors: White, Taupe, Sand, and Grey. Unlimited aesthetic vanguard.

Based on pure white and its infinite possibilities, the Matt line stands out for the balance and spaciousness it provides to construction projects. Both the wall covering, which has dimensions of 45x120 cm and presents four decorations, and the flooring, available in 59,6x59,6 cm and 100x100 cm, have redesigned the classical canons of interior design through their White color. Advocacy of light austerity.
