Nature inspiration

360° Virtual Showroom · www.system-pool.com

La naturaleza ha sido y será una importante fuente de inspiración a la hora de crear nuestros productos, recogiendo y adaptando las formas naturales para hacerlas partícipes de nuestra vida diaria. Tanto en su evocación formal como en la conceptual la naturaleza esta presente en las series de KRION® baño. Finas líneas al servicio de un reflejo puro y sofisticado de la sencillez natural, congruente con la filosofía menos es más, nos transmiten el sosiego de no sucumbir a la eterna insatisfacción que nos genera la abundancia.

La utilización de KRION® 100% reciclable, no emisor de compuestos volátiles, avala el compromiso de SYSTEMPOOL con la naturaleza. KRION® es un material especialmente reparable, pudiendo recobrar continuamente su aspecto inicial, aumentando la vida útil del producto, reduciendo las necesidades de reposición y cumpliendo así con las condiciones de durabilidad recomendadas por las guías medioambientales internacionales.

Nature has been and will be an important source of inspiration when we create our products, compiling and adapting natural forms to make them participants of our daily routine. Nature is present in the KRION™ bathroom series, also in its formal and conceptual invocation. Fine lines at the service of a pure and sophisticated reflection of natural simplicity, congruent with the less is more philosophy, it transmits to us the calm of not succumbing to eternal dissatisfaction caused by abundance.

The use of 100% recyclable KRION™ that does not emit volatile composites, guarantees the commitment of SYSTEMPOOL with nature. KRION™ is an especially repairable material, being able to continuously recover its initial aspect, increasing the useful life of the product, reducing the need for replacement and that way meeting the conditions of durability recommended by international environmental guidelines.

La nature a été et sera toujours une importante source d'inspiration pour concevoir nos produits. Grâce à l'emploi et à l'adaptation de ses formes, nous les rendons partie de notre vie quotidienne. La nature est présente dans les séries de KRION® salles de bain aussi bien par l'évocation de ses formes que par son concept. Des lignes filiformes au service du reflet pur et sophistiqué de la simplicité de la nature, cohérent avec la philosophie du « moins, c'est plus » qui transmet cette sérénité de la certitude de ne pas succomber à l'insatisfaction éternelle que génère l'abondance.

L'utilisation de KRION®, 100 % recyclable et sans émission de composés volatils, témoigne de l'engagement de SYSTEMPOOL en faveur de la protection de la nature. KRION® est un matériau notamment réparable, qui peut reprendre sans problème son aspect initial, augmentant la durée de vie du produit, réduisant les besoins de remplacement et remplissant ainsi les conditions de durabilité recommandées par les directives internationales environnementales.

ARO SERIES

El agua es el elemento central de esta serie inspirada en la ceremonia del té japones. De ahí, las profundas formas cóncavas de los diferentes elementos de la colección Aro, que recuerdan a los boles de porcelana utilizados en este rito. Bajo esta premisa, estudi{H}ac redefine una tradición ancestral con un diseño moderno al que da forma un material tan innovador como el compacto mineral KRION® a base de líneas sutiles, naturales y limpias, concretadas en figuras semicirculares de tacto cálido.

Water is the central element of this series inspired by the Japanese tea ceremony. The deep concave shapes of the different elements of the Aro collection are reminiscent of the porcelain bowls used in this ritual. Under this premise, estudi{H}ac redefines an ancestral tradition with a modern design which shapes the innovative material of the compact mineral KRION™, based on subtle, natural and clean lines in semi-circular forms which are warm to the touch.

L'eau est l'élément central de cette série inspirée de la cérémonie du thé japonais. D'où les profondes formes concaves des différents éléments de la collection ARO, qui rappellent les bols en porcelaine utilisés à l'occasion de ce rite. C'est dans cet esprit que estudi{H}ac revisite une tradition ancestrale avec un design moderne auquel donne vie un matériau aussi innovant que le minéral compact KRION® sur la base de lignes subtiles, naturelles et pures s'exprimant sous forme de figures semi-circulaires agréables au toucher.

MODUL BEIGE

El color Beige es el mejor tinte para neutralizar el espacio del hogar. Pero al mismo tiempo, proporciona un aire contemporáneo y cálido, puesto que nos recuerda a los colores con los que nos deleita la madre naturaleza.

Beige provides the most effective way of bringing neutrality to any space in the home. At the same time, it creates a contemporary and warm atmosphere; reminding us of the colours to be found in nature.

La couleur Beige est le meilleur choix pour doter le logement de neutralité. Mais elle lui apporte en même temps une touche contemporaine et chaude, car elle rappelle les couleurs qui nous séduisent dans la nature.

MODUL WOOD

La inspiración esencial de la colección Modul Wood provoca en el hogar un ritmo vivo y natural, puesto que fusiona la sinuosidad formal de la madera, en combinación con la dureza superficial del compacto mineral. Generando así un espacio ecléctico, pero con un denominador común... la naturaleza.

The essential inspiration for the Modul Wood collection induces a natural and living rhythm in the home, fusing the grained texture of wood in combination with the durable surface of mineral. Thus creating an eclectic space, but with a common denominator.....nature.

L'inspiration essentielle de la collection Modul Wood dote le logement de rythme et de naturalité, car elle fusionne la sinuosité formelle du bois en combinant celle-ci avec la dureté de la surface du matériau minéral compact. Elle crée de cette manière un espace éclectique, mais avec un dénominateur commun : la nature.
