

Foster + Partners PORCELANOSA

TONO

TONO series by Foster + Partners and Porcelanosa Group brings together the products of three Porcelanosa companies: L'Antic Colonial, SystemPool and Noken. It is a very wide collection with many variations in finishes, depending on the work made by each company.

In the following catalogue only the pieces belonging to Noken are shown, so it should not be taken as the catalogue of the complete collection.

La serie TONO de Foster + Partners y Porcelanosa Grupo aúna los productos de tres empresas de Porcelanosa: L'Antic Colonial, SystemPool y Noken. Se trata de una colección muy amplia y con muchas variaciones en acabados, dependiendo del trabajo de cada empresa.

En el siguiente catálogo se muestran solamente las piezas que pertenecen a Noken, por lo que no se debe tomar como un catálogo de la colección completa.

Norman Foster, founder of Foster +
Partners, is responsible for a strikingly
wide range of work, from urban
masterplans, public infrastructure,
airports, civic and cultural buildings,
offices and workplaces to private
houses and furniture design. He
was awarded Royal Gold Medal
for Architecture in 1983, the Gold
Medal for the French Academy of
Architecture in 1991 and the American
Institute of Architects Gold Medal in
1994. Also in 1994, he was appointed
Officer of the Order of Arts and
Letters by the Ministry of Culture
in France. In 1999 he became the
twenty-first Pritzker Architecture Prize
Laureate. In 2009 he was awarded
with the Prince of Asturias Arts Award.

Norman Foster, fundador de
Foster + Partners, es responsable
de una asombrosa variedad de
trabajos, desde planos urbanísticos,
infraestructuras públicas,
aeropuertos, edificios cívicos y
culturales, oficinas y lugares de
trabajo hasta casas privadas y diseño
de muebles. Recibió la Royal Gold
Medal de arquitectura en 1983, la
Gran Medalla de Oro de la Academia
Francesa de Arquitectura en 1991
y la Medalla de Oro del Instituto
Americano de Arquitectos en 1994.
También en 1994 fue nombrado
Oficial de la Orden de las Artes y las
Letras por el Ministerio de Cultura
de Francia. En 1999 se convirtió en
el vigésimo primer galardonado
con el Premio Pritzker. En 2009 fue
galardonado con el Premio Príncipe

"Architecture is the expression of values"

Millau Viaduc

Hearst Tower

Beijing Airport

The challenge was to create a set of components that work together as part of an integrated system, with an unlimited choice of finishes and materials. Unified by a common, simple design language and palette of complementary materials and colour tones, the minimalist aesthetic brings to the fore an honesty of material, simplicity of form and the craft of manufacture

El verdadero desafío fue crear un conjunto de componentes que funcionaran juntos como parte de un sistema integrado, con una selección ilimitada de acabados y materiales.

Unificada por un lenguaje de diseño común y simple y una paleta de materiales complementarios y tonos de color, la estética minimalista pone de relieve la honestidad del material, la simplicidad de la forma y el arte de la fabricación.

11 Alike Holland - Head of Industrial Design at Foster + Partners 12 Alike Holland - Director de Diseño Industrial en Foster + Partners noken

Foster + Partners PORCELANOSA

No other organisation has a palette as wide as **Porcelanosa**. Marble, ceramics, Krion, timber, brassware... Its breadth of materials and techniques now combines with the vision of **Foster + Partners** in the perfect marriage. **TONO** offers architects and designers a new departure in bathroom design.

No more, no less. Just as eliminating superfluous detail makes for better design, it also enhances sustainability.

Two companies, one philosophy, infinite possibilities.

Ninguna otra organización tiene una oferta tan amplia como **Porcelanosa**. Mármol, cerámica, Krion, madera, grifería... Su cantidad de materiales y técnicas ahora combina con la visión de **Foster + Partners** en el maridaje perfecto. **TONO** ofrece a arquitectos y diseñadores un nuevo punto de partida en el diseño del cuarto de baño.

Ni más ni menos. Simplemente eliminando los detales superfluos se cre un mejor diseño que también favorece la sostenibilidad.

Dos compañías, una filosofía, infinitas posibilidades

NO MORE, NO LESS

Vi más ni menos

TONO asks the important question first. What's the most efficient volume of water? How can controls be made genuinely intuitive? Aesthetics derive from functionality and the innate properties of the materials used.

The result of physical making rather than theorical ideas, the performance of each TONO product has been optimised through rigorous testing, prototyping and human interaction.

Together, Foster + Partners and Porcelanosa Bathrooms pushed themselves to develop something out of the ordinary: individually crafted components that simultaneously work holistically and harmoniously.

TONO is defined by its extensive choice and the flexibility it offers. Almost any configuration is possible, the material combinations emphasising the strength of each element while underlining the homogeneity of the range.

TONO hace primero la pregunta importante. ¿Cuál es el volumen de agua más eficiente? ¿Cómo pueden hacerse los controles genuinamente intuitivos? La estética deriva de la funcionalidad y las propiedades innatas del material utilizado.

El resultado de la creación física en lugar de ideas teóricas, el rendimiento de cada producto TONO se ha optimizado a través de pruebas rigurosas, creación de prototipos e interacción humana.

Juntos, Foster + Partners y Porcelanosa Bathrooms se han esforzado por desarrollar algo fuera de lo común: componentes elaborados de forma individual funcionan simultáneamente de manera holística y armoniosa.

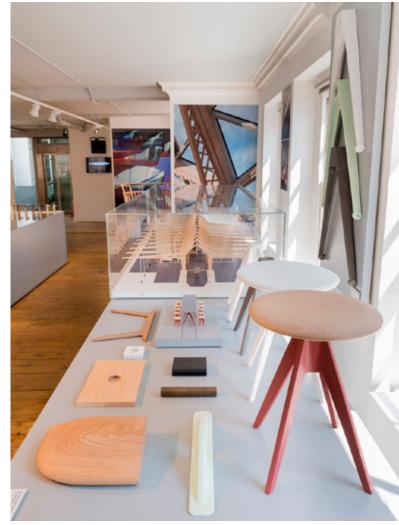

TONO se define por sus opciones y la felxibilidad que ofrece. Casi cualquier configuración es posible, las combinaciones de materiales enfatizan la resistencia de cada elemento mientras se subraya la homogeneidad de la serie.

Bathrooms can be adapted according to taste and context in the knowledge that everything works together.

Los baños se pueden adaptar según el gusto y el contexto teniendo en mente que todo funciona como un conjunto.

Foster + Partners Exhibition at Aram Gallery

The Industrial Design team of Foster +
Partners carries out a diverse range of work,
frequently working as an integral part of the
overall studio, designing specific building
elements, but also developing products
at the commercial and domestic scale in
collaboration with industry partners such as
Porcelanosa Group with TONO collection.

El equipo de Diseño Industrial de Foster + Partners lleva a cabo una amplia gama de labores, trabajando frecuentemente como parte integral del estudio general, diseñando elementos de construcción específicos, pero también desarrollando productos a escala comercial y doméstica, en colaboración con socios industriales, como por ejemplo Porcelanosa Grupo con la colección TONO.

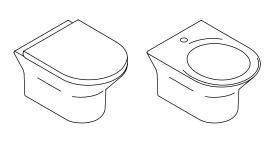

The wall hung sanitary elements of the collection, manufactured in Noken Ceramic® -Noken's high quality sanitary ceramics, add contemporary minimalism to the bathroom, subtracting everything superfluous to obtain highly dynamic pieces.

In addition, TONO toilet contributes to sustainability with a double reduced water flush of 3 and 4,5 litres.

Los elementos sanitarios suspendidos de la colección, manufacturados en Noken Ceramic®, la cerámica sanitaria de alta calidad de Noken, aportan al baño minimalismo contemporáneo, restando todo lo superfluo para obtener piezas altamente dinámicas.

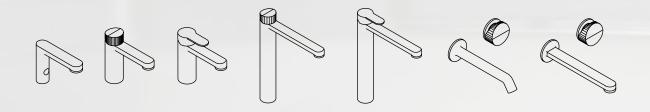

Además, el inodoro TONO contribuye a la sostenbilidad con una doble descarga de agua reducida de 3 y 4,5 litros

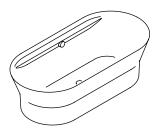

With proportions and solidity that belie their light, intuitive feel, taps feature a bevel that catches the light and acts as a visual cue to lift the control lever, together with a rib surface that invites them to be turned.

Con proporciones y una solidez que desmienten su apariencia intuitiva y ligera, las piezas de grifería de lavabo cuentan con un bisel que atrapa la luz y actúa como una señal visual para levantar la maneta, junto con una superficie estriada que invita a ser utilizada.

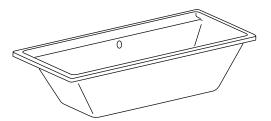

The freestanding bath has an integrated shelf, and so that nothing disrupts the purity of its form, all pipes and overflow are hidden away.

La bañera exenta tiene una superficie de apoyo integrada, y para que nada interrumpa la pureza de su forma, todas las tuberías y el rebosadero están ocultos.

The new built in bath tub keeps the essence of the collection. It stands out for its elegant and comfortable shelf.

Made in our high quality acrylic it will become an essential element in the bathroom. It will also be available in several sizes, adapting itself to all types of spaces.

La nueva bañera de encastre Tono conserva la esencia del resto de piezas cuidando cada uno de los detalles en su diseño. Destaca por su elegante y cómoda repisa. Fabricada con nuestro acrílico de alta calidad se convertirá en un elemento esencial dentro del baño; además, estará disponible en varias medidas adaptándose así a todo tipo de espacios.

Wash basins are countertop or wall-mounted, their blend off functionality and minimalism exemplified by a concealed click-clack plug mechanism. Also, the overflow allows the use of these basins for high transit areas.

Made in Noken Ceramic®, TONO washbasins not only provide high resistance and functionality, but also respect the essence of the TONO series.

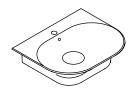

Los lavabos pueden ser de encimera o suspendidos, y su combinación de funcionalidad y minimalismo se ejemplifica por un vaciador clicker cerámico. Además, el rebosadero permite el uso de estos lavabos en zonas de alto tránsito

Hechos en Noken Ceramic®, los lavabos TONO no solamente aportan resistencia y funcionalidad sino que también respetan la esencia de la serie TONO.

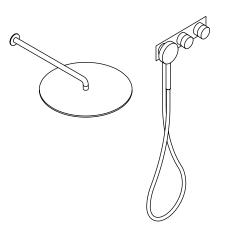

Simplicity and proven functionality are the keys to the success of TONO shower heads. Designed to adapt to any space in the bathroom, this 40 cm diameter pieces make showering a daily pleasure.

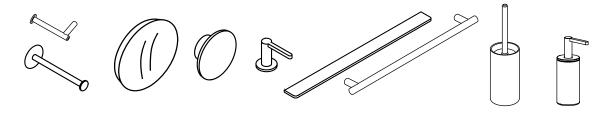

On top of that, the hand shower (both for the thermostatic set and the floor mounted brassware) is held with a magnetic support, which makes the hole composition a bit different.

Sencillez y funcionalidad son las claves de los rociadores TONO. Pensados para adaptarse a cualquier espacio del cuarto de baño, estas piezas de 40 centímetros de diámetro hacen de la ducha un placer diario.

Además, la teleducha (tanto en la termostática como en la instalación a pavimento) se sujeta a través de un soporte magnético que aporta al conjunto un toque diferente.

The list of bathroom accessories is almost endless and includes towel rails, hangers, cabinets and countless small yet carefully designed elements that mark the difference between each bathroom while also increasing the practical nature of this space.

La lista de accesorios de baño es casi infinita con toalleros, colgadores, portaobjetos y un sinfín de pequeños elementos con un cuidado diseño que imprimen el carácter diferenciador a cada cuarto de baño al tiempo que elevan el sentido práctico de este espacio.

TONO brassware and accessories are available in chrome finish. For the rest of finishes is necessary to establish contact with Noken commercial department.

Las piezas de grifería y accesorios de TONO están disponibles en cromo. Para acabados especiales es necesario consultar con el equipo comercial de Noken.
